New Common Core Standards are Coming!

The New Lebanon Local School District is beginning the transition to the Common Core Standards adopted by the Ohio Department of Education. Full implementation will occur during the 2013-2014 school year. The new standards will provide greater depth so students will graduate high school able to succeed in college and in workforce training programs.

The mission of the Common Core is to "provide a consistent, clear understanding of what students are expected to learn, so teachers and parents know what they need to do to help them. The standards are designed to be robust and relevant to the real world, reflecting the knowledge and skills that our young people need for success in college and careers. With American students fully prepared for the future, our communities will be best positioned to compete successfully in the global economy.
